

Wall Displays - Level 2

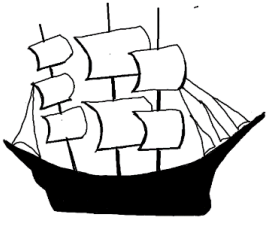

Complex Sounds

Wall Displays are great for revision. They also allow your child to write more independently. If they forget a sound, they can look to the Wall Display for help, instead of asking an adult.

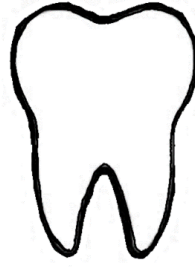

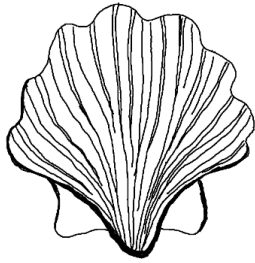

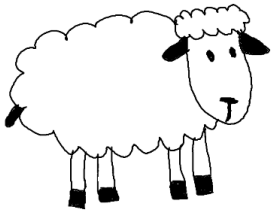

I recommend putting each sound on the wall after it has been taught.

You can also play games with them, e.g. “Can you find . . . the bird?!”, or “Can you point to the sound. . . ow?!”.

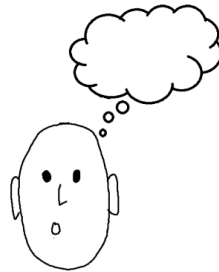

Don't be afraid to use your imagination. Have fun using them!
